Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) Keith Devlin

Keith Devlin. You know him. You've read his columns in MAA Online, you've heard him on the radio, and you've seen his popular mathematics books. In between all those activities and his own research, he's been hard at work revising Sets, Functions and Logic, his standard-setting text that has smoothed the road to pure mathematics for legions of undergraduate students.

Now in its third edition, Devlin has fully reworked the book to reflect a new generation. The narrative is more lively and less textbook-like. Remarks and asides link the topics presented to the real world of students' experience. The chapter on complex numbers and the discussion of formal symbolic logic are gone in favor of more exercises, and a new introductory chapter on the nature of mathematics--one that motivates readers and sets the stage for the challenges that lie ahead.

Students crossing the bridge from calculus to higher mathematics need and deserve all the help they can get. Sets, Functions, and Logic, Third Edition is an affordable little book that all of your transition-course students not only can afford, but will actually read...and enjoy...and learn from.

About the Author

Dr. Keith Devlin is Executive Director of Stanford University's Center for the Study of Language and Information and a Consulting Professor of Mathematics at Stanford. He has written 23 books, one interactive book on CD-ROM, and over 70 published research articles. He is a Fellow of the American Association for the Advancement of Science, a World Economic Forum Fellow, and a former member of the Mathematical Sciences Education Board of the National Academy of Sciences,.

Dr. Devlin is also one of the world's leading popularizers of mathematics. Known as "The Math Guy" on NPR's Weekend Edition, he is a frequent contributor to other local and national radio and TV shows in the US and Britain, writes a monthly column for the Web journal MAA Online, and regularly writes on mathematics and computers for the British newspaper The Guardian.

From reader reviews:

Robert Henderson:

The book Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) make one feel enjoy for your spare time. You need to use to make your capable far more increase. Book can for being your best friend when you getting anxiety or having big problem with your subject. If you can make reading through a book Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) to get your habit, you can get considerably more advantages, like add your own capable, increase your knowledge about many or all subjects. You could know everything if you like open and read a e-book Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series). Kinds of book are several. It means that, science publication or encyclopedia or some others. So , how do you think about this guide?

Jo Melvin:

Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) can be one of your nice books that are good idea. We recommend that straight away because this e-book has good vocabulary that could increase your knowledge in terminology, easy to understand, bit entertaining however delivering the information. The copy writer giving his/her effort to get every word into joy arrangement in writing Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) yet doesn't forget the main position, giving the reader the hottest and also based confirm resource data that maybe you can be one of it. This great information can drawn you into fresh stage of crucial pondering.

Blanche Dobos:

Do you like reading a reserve? Confuse to looking for your selected book? Or your book has been rare? Why so many problem for the book? But any people feel that they enjoy intended for reading. Some people likes reading, not only science book and also novel and Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) as well as others sources were given expertise for you. After you know how the good a book, you feel desire to read more and more. Science book was created for teacher or even students especially. Those ebooks are helping them to put their knowledge. In other case, beside science publication, any other book likes Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) to make your spare time a lot more colorful. Many types of book like this.

Dorothy Betancourt:

Some people said that they feel bored when they reading a book. They are directly felt it when they get a half regions of the book. You can choose typically the book Sets, Functions, and Logic: An Introduction to

Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) to make your reading is interesting. Your current skill of reading expertise is developing when you like reading. Try to choose easy book to make you enjoy to learn it and mingle the sensation about book and reading especially. It is to be 1st opinion for you to like to start a book and go through it. Beside that the book Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) can to be a newly purchased friend when you're sense alone and confuse in what must you're doing of the time.
