The Great Explorers: The European Discovery of America Samuel Eliot Morison

This is an abridgement of Samuel Morison's magnum opus, *The European Discovery of America*, in which he describes the early voyages that led to the discovery of the New World. All the acclaimed Morison touches are here - the meticulous research and authoritative scholarship, along with the personal and compelling narrative style that gives the reader the feeling of having been there. Morison, of course, has been there, and *The Great Explorers* is enriched with photographs and maps he made while personally retracing the great voyages.
