Lectures on rhetoric and belles lettres: By Hugh Blair, ... In three volumes. ... [pt.2] Hugh Blair

"HAVING treated, at considerable length, of the Figures of Speech, of their origin, of their nature, and of the management of such of them as are important enough to require a particular discussion, before finally dismissing this subject, I think it incumbent on me, to make some observations concerning the proper use of Figurative Language in general. These, indeed, I have, in part, already anticipated. But, as great errors are often committed in this part of Style, especially by young writers, it may be of use that I bring together, under one view, the most material directions on this head."

This is an edition of a classical book first published in the eighteenth century.
