Arts of the Political: New Openings for the Left Ash Amin, Nigel Thrift

In the West, "the Left," understood as a loose conglomeration of interests centered around the goal of a fairer and more equal society, still struggles to make its voice heard and its influence felt, even amid an overwhelming global recession. In *Arts of the Political: New Openings for the Left*, Ash Amin and Nigel Thrift argue that only by broadening the domain of what is considered political and what can be made into politics will the Left be able to respond forcefully to injustice and inequality. In particular, the Left requires a more imaginative and experimental approach to the politics of creating a better society. The authors propose three political arts that they consider crucial to transforming the Left: boosting invention, leveraging organization, and mobilizing affect. They maintain that successful Left political movements tend to surpass traditional notions of politics and open up political agency to these kinds of considerations. In other words, rather than providing another blueprint for the future, Amin and Thrift concentrate their attention on a more modest examination of the conduct of politics itself and the ways that it can be made more effective.
