Bringing immigrants onstage as central players in the drama of rural capitalist transformation, Anne Kelly Knowles traces a community of Welsh immigrants to Jackson and Gallia counties in southern Ohio. After reconstructing the gradual process of community-building, Knowles focuses on the pivotal moment when the immigrants became involved with the industrialization of their new region as workers and investors in Welsh-owned charcoal iron companies. Setting the southern Ohio Welsh in the context of Welsh immigration as a whole from 1795 to 1850, Knowles explores how these strict Calvinists responded to the moral dilemmas posed by leaving their native land and experiencing economic success in the United States.

Knowles draws on a wide variety of sources, including obituaries and community histories, to reconstruct the personal histories of over 1,700 immigrants. The resulting account will find appreciative readers not only among historical geographers, but also among American economic historians and historians of religion.
