The Heirs of the Stars: Who Are We? Where Do We Come From? Where Are We Going? Massimo Maresca

The Heirs of the Stars represents a belief that a philosophical concept, when presented to an open-minded man, can significantly change his view on life. Life, the Earth, and the entire Universe inspire an awareness of God, which is often the path to true and lasting happiness. The author promotes a rebellion against the "industrial man" who is the killer of Nature and its' spirit, believing that saving Nature and giving dignity to humanity represents the only way to survive. The Heirs of the Stars examines the odyssey of human life, the mystery of man's brain, and the grim reality of diseases and human suffering. The book leaves the reader with a final provocative question: What kind of future awaits the "aware" man?
