Countdown to Armageddon (6 Book Series) Darrell Maloney

From Book 1: Scott Harter was an average man. He wasn't dumb, but he'd never be invited to join Mensa either. He'd liked to have married a beauty queen, but his average looks certainly did nothing to attract any. Neither did his vanilla personality.

No, Scott was average in every way, except when it came to luck. He was a very lucky man. And that's how he managed to discover what the Mayans really meant about the world ending on December 21st, 2012.

Scott learned that the Mayans never said the world was going to end that day. What they said was that day marked the beginning of a period that would see the end of civilization as we know it. The Mayans called it "The last period of progress."

Scott knew that big changes were coming. The Mayans left several clues about the pending disaster. He just didn't know when. He didn't know if he had two days to prepare, or two years.

To protect his family, Scott threw every resource he had into preparing for the end. And some resources he didn't have.

This is Scott's story.
