## Lippincott's Primary Care Rheumatology

This volume of **Lippincott's Primary Care Series** will help family practitioners, internists, nurse practitioners, and physician assistants understand, diagnose, and treat the most common rheumatologic problems seen in the primary care setting. Emphasis on day-to-day practical outpatient office practice distinguishes this from the many existing rheumatology textbooks and it contains numerous images to aid in diagnosis and treatment. Whenever possible, chapters follow a consistent format with headings of Clinical Presentation, Examination, Studies, Treatment, Clinical Course, and Conclusions and box elements such as Introductory Case, Clinical Points/Highlights, Patient Assessment, Not to Be Missed, and When to Refer. Key points are provided for those topics that don't fit this format.
