City of Empires: Ottoman and British Famagusta (Cyprus Historical and Contemporary Studies)

Michael J. K. Walsh

Despite its undoubted importance, there has never been a volume dedicated entirely to studies of the historic city of Famagusta in the years which followed the siege of 1571. *City of Empires: Ottoman and British Famagusta* takes an important first step in redressing this imbalance. The four centuries which followed the conflict, as the contributions gathered here demonstrate, are rich research seams for scholars of history, urban design, photography, art history, literature, drama, military history and the post-war mandates. *City of Empires* also places emphasis on the tangible heritage of Famagusta twice listed as endangered by World Monuments Fund and now the recipient of an increasing number of international efforts to protect it.
