Snow Leopard: Stories from the Roof of the World

"Just recently, we once again traveled the high roads of snow leopard country, enjoying the beauty of Ladakh's iconic monasteries and watching blue sheep graze steep mountainsides. We saw no snow leopards but sensed their presence, feeling lucky and thrilled to be under the distant gaze of this magnificent cat. May you experience a similar feeling as you read about the snow leopard in this remarkable collection."

-Robert Bateman, from the foreword.

Like no other large cat, the snow leopard evokes a sense of myth and mysticism, strength and spirit shrouded in a snowy veil, seldom seen but always present. Giving a voice to the snow leopard, this collection of powerful first person accounts from an impressive cadre of scientist-adventurers grants readers a rare glimpse of this elusive cat and the remarkable lives of those personally connected to its future. These Stories from the Roof of the World resonate with adventure, danger, discovery, and most importantly hope for this magnificent big cat.

Very little has been written about this mystical creature. Its remote and rugged habitat among the mightiest collection of mountains on Earth, proclaimed "The Roof of the World" by awe-struck explorers, make it one of the most difficult and expensive animals to study. After a millennia thriving in peaceful isolation, human encroachment, poaching and climate change threaten the snow leopards survival. Speaking on behalf of the snow leopard, these heart-felt stories will inform and inspire readers, creating the vital connection needed to move people toward action in saving this magnificent cat.
