Scooter Lifestyle Ian Iggy Grainger

There has been plenty said and written about scooters over the years but until now there has been no definitive look at the culture surrounding our chosen way of life. Many authors have written about mods or the infamous and often over hyped beach battles of the 1960's but hardly any have tried to capture the atmosphere of the modern scene in print. We still owe the original mods for fueling the imagination of past, present and future generations and for leaving a rich scooter heritage behind them. Although the mod way of life was the spark which lit the fuse for many of us, the majority of scooter riders have evolved into lifestyle scooterists. We may not dress in a particular style, our scooters may not be adorned with lights and mirrors but we still burn with the same passion as our scooter riding ancestors. It's over sixty years since the first Italian scooters rolled off the production lines but there is still a buzzing and vibrant lifestyle with the humble scooter as its nucleus. The small capacity machines have overtaken the lives of thousands of us, often to the detriment of everything else we hold dear. Careers, relationships and families have suffered for this overwhelming and expensive addiction. An addiction to which there is no cure. We live and breathe the sickly sweet smell of synthetic two stroke oil and worship at the altar of our chosen gods, Lambretta and Vespa (or occasionally Gilera and Italjet). Our hands are permanently ingrained with the oily 'tattoo's' of a thousand engine rebuilds and our major organs have suffered the long term effects of our hedonistic lifestyle. Including interviews with well known Scootering personalities, over 150 color photographs of award winning custom scooters, best selling scooter models, rallies and events. This book is a must have for anyone interested in these fun machines.
