Carson is an undercover federal agent tasked with undoing exactly the kind of end-of-the-world-as-we-know-it catastrophe that brought America down in Get Out of Denver. Cut off from all support and unsure of who he can trust, he still has a mission to complete. But as layer after layer of the conspiracy unfolds around him, he has to cut through the lies and threats to find the truth about who took down the power grid, what their agenda is now, and what he can do to stop it.

Book Three in the Denver Burning series shows the social meltdown in Denver from another angle. McLean and Carrie walked away from it all in Book One. Now another man must walk back into it and face the disaster head-on.
