Dogs: History, Myth, Art (Gift Books) Catherine Johns

The book will open with an introduction exploring the evolution of the species, its earliest interaction with human communities and its domestication, its importance in human history and culture, and its role in art, symbolism and mythology. This will be followed by spreads comparing and contrasting images from different cultures to show similarities and differences in the way that dogs have been perceived and depicted. The illustrations will include not only domestic dogs but also dramatic portraits of wolves, foxes and jackals. The illustrations will range from life-size sculpture to tiny engraved gems, from mosaic floors and stone wall-reliefs to miniature paintings and gold ornaments and from ceramic vessels to pocket-knife handles, and will span a timescale from prehistory to the present.
