Multicriteria Decision Analysis in Geographic Information Science (Advances in Geographic Information Science)

Jacek Malczewski, Claus Rinner

Multicriteria Decision Analysis in Geographic Information Science (Advances in Geographic Information Science) Jacek Malczewski, Claus Rinner

This book is intended for the GIS Science and Decision Science communities. It is primarily targeted at postgraduate students and practitioners in GIS and urban, regional and environmental planning as well as applied decision analysis. It is also suitable for those studying and working with spatial decision support systems.

The main objectives of this book are to effectively integrate Multicriteria Decision Analysis (MCDA) into Geographic Information Science (GIScience), to provide a comprehensive account of theories, methods, technologies and tools for tackling spatial decision problems and to demonstrate how the GIS-MCDA approaches can be used in a wide range of planning and management situations.
